Dear CABC,

I wish to extend to your team my gratitude for the services you have provided since 2006 through to the closure of our branch in Azerbaijan in late 2009.

Your assistance and advice in matters relating to the legislative requirements of doing business in Azerbaijan has been invaluable and contributed to the success of our business. Please feel free to use this letter as a recommendation to your other clients.

For the benefit of your future clients, I can confirm that CABC actively and competently assisted in many activities including but not exclusive to Statutory Reporting, including clearing a legacy of incorrectly filed taxation reports which was the catalyst to hiring CABC as our new taxation advisors; Provision of Temporary Personnel to assist in the administration of our business; Legal Advice relating to Employment and Taxation Law; conclusion and closure of Branch office in Azerbaijan including a thorough audit by the local tax authority.
